Deliverable 4 User Stories

1. As a learner, I want to log in and browse available coding challenges so that I can find practice problems that fit my skill level and learning goals.

2. As a learner, I want to view a progress dashboard that shows my completed challenges, streak, and points so I can track my improvement and stay motivated.

3. As a learner, I want to create, edit, update, and delete my personal learning goals so that I can manage my skill development objectives and milestones.

4. As a learner, I want to submit my code solutions and receive AI-generated feedback so that I can understand what I did well, see what needs improvement, and learn best practices without waiting for manual reviews.
